First Milam Win In 20 Years — Buckholts Places 1 and Yoe 2

Milam Teams Sweep State Poultry Judging Meet At A&M

Two Milam County teams took off first and second places in the State Poultry Judging contest held at Texas A & M on May 5.

The Buckholts F.F.A. chapter won first place with cousins James Edward Glaser and Stanley Glaser winning first and second high individual scores. James Edward additionally became one of the few contestants to ever grade eggs 100 percent accurate in a state contest.

This is the first time in twenty years that a Milam County team has won first place in the state contest. The last time was when Dana Monroe, Dr. Lyle McDermott and James Brock won as freshmen. This time the Cameron team took second place to the Buckholts team after having won first in the Fort Worth Poultry Show, the San Marcos Invitational meet and the Area meet. The Tittsworth tutored boys came through in the clinch and won the important match however.

The Buckholts team composed of Stanley Joe Glaser, son of Mr.

and Mrs. Joe Glaser; James Edward Glaser, his double cousin, son of Mr. and Mrs. Willie F. Glaser and Hal Lester Senkel, son of Mr. and Mrs. Edward Senkel. The alternate team member is Kenneth Janicek, son of Mr. Frank Janicek.

The Buckholts team will compete in the National F.F.A. Poultry Judging contest to be held at Kansas City in the fall.

The team members at Buckholts are all freshmen and first year vocational agriculture stu-

Parker was eighth high individual. They participated March 17 in San Marcos invitational judging contest and placed 7th. with Hal Lester Senkel as fourth place high individual. On April 14 the team participated in the area III elimination for state competition at Texas A & M College and placed sixth with Stanley Joe Glaser in ninth high scoring individual place.

The Yoe High team was composed of Arthur Parker, Carol Wayne Jungmann and Joe Walzel.

Walzel did not score in the first ten individuals in the state meet but was high individual in the Fort Worth Poultry Show, the San Marcos Invitational meet and in the Area meet. Leroy Thompson, coach of the Yoe High team said Tuesday that he had never worked with any boys that he enjoyed more and who worked harder. Coach Tittsworth asked that we express the deep appreciation of himself and his team to the many who aided his team in winning top state honors.

Tempers Flare In "Best County Convention In 15 Years"; Camp

By James E. "Bo" Patterson
E. A. Camp, dean of Milam's County Bar Association, opened the County Democratic Convention at 8 p.m. sharp in District courtroom Tuesday night to later be elected permanent chairman of the convention by acclamation.

Milam County will take six unit rule votes to the state convention for Johnson as a result of that slightly turbulent convention. Thirty six delegates were named as delegates to the convention. These delegates, the chair ruled did not have to come from accredited delegates to the county convention.

Early in the proceedings chairman Camp asked for calm deliberation "Let's all hold our tempers" and minutes later in demanding quiet and no interference as he was speaking whammed an historic hand-carved gavel on the desk so hard it broke in half.

A states right resolution proposed as a non-partisan resolution, upon which all democrats could agree, by W. C. Wallace brought on a tempest as chairman E. A. Camp turned over the chair to a delegate long enough to second the adoption and then launch a tirade against Governor Shivers and the Shivers inspired resolution which was full of virtues which he declared are not the private property of the Shiver-crats. His speech sought to make it clear that the resolution could just as well be sponsored by the Johnson forces (who were having their field day). The memorial resolved the endorsement of the principle of the right of the separate states to control their internal affairs, and the right of individual citizens to local self-government. It firmly opposed Federal control over the public schools of the States in any guise or form, to Federal control of the production of natural resources of any state, to Federal infringement of state laws protecting the individual citizen in seeking and holding employment, and to all other at-

tempts by the Federal Government to encroach upon the rights reserved to the people and the individual states by the Constitution of our country. The resolution passed unanimously.

A second "minority" resolution offered by Wallace toward the two-thirds rule at the national convention was killed by a marginal voice vote. The chair denied a roll call sought by minority members.

County Chairman Max McClaren who is graduating from Baylor University this spring was detained in Waco and could not be present for the convention was the subject of an oral resolution which ordered the Secretary of See **TEMPERS** - Back page

Drink Problem Rockdale Public Forum Subject

The Episcopal Church of Rockdale is beginning the sponsorship of a program on the "Problem of drinking."

The meetings will be in the form of an open forum.

Members of Alcoholics Anonymous will be there and Dr. Will of Corsicana will speak on "What is alcoholism?" and "Alcoholics Anonymous and how it operates."

Public Welfare Office Moves To New Quarters

Cameron's Public Welfare Office has moved its quarters to new quarters across the street from the Post-office.

In the move, it was declared by officials, that more privacy would be afforded the patrons who discuss their private lives with Welfare personnel. The home affords several private rooms for consultation while the quarters formerly occupied at the Cameron Hotel was partitioned off by temporary eight foot high partitions.

The county will pay approximately ten dollars per month more for the new quarters and will pay all bills but the move was considered advisable in view of the need for privacy an official said.

Garbage, Trash Pickup Improves With Increased Cooperation

been under surveillance for the past week and chief of public works, W. D. Bigbee, reports that a change within the department plus increased cooperation on the part of citizens in placing their containers within easy reach of the truck men has helped a lot.

Pictures were made of the best location in town where the garbage container is always easily accessible and some other locations where the garbage men have to walk great distances and then hand the container over the fence for emptying. Some of these pictures will be in the next issue of the Herald.

Only slight improvement in the speed with which the pick-up is made will be noticed by the patrons at first but as cooperation increases and the cans are smaller, with handles and within easy reach of the men the service will become better and better until ultimately, Bigbee declares, the men can work on a time schedule and will be at a given residence at the same time each week with proper assistance from the people.

The thirty gallon covered can with handles is considered the most appropriate size can to own and it is hoped that many people will get this type of can.

Bigbee emphasizes that the city is not asking for cooperation to make less work on the part of their men but only to enable them

City Buys More Enforcement As Chief Adds Staff, Equipment

Law enforcement in Cameron has taken a decided upturn since the advent of chief of police Dolan despite a lot of mischief over the weekend.

Two new officers were hired Monday, on the heels of a burglary and car theft Saturday night. Fines rose sharply as did the income from fines even under the old rate with Chief Dolan turning in \$88 in monies collected on guilty pleas. He had been on duty less than two weeks when he turned in his first "earnings" from offenders.

George D. McCall, 51, of Yarrington who did shore patrol duty during the second world war was hired Monday at a salary of \$155 per month and William Brandenburg, 28, a married man with two

children, who was a Staff Sergeant at Fort Hood and on the Killeen Police force following his separation from the service about six months ago. He was on the California Reserve Police at one time. His starting salary will be \$245 and he will hold the title of night chief of police. The present night watchman, John B. Dodson will be retained at his present salary of \$165. Either Clarence Mc-

Cameron Firemen Take Second In Race With 19.2

Cameron's Volunteer Firemen, in Fredericksburg, Sunday, May 6 won second place in the race in which the team boards the truck, rides about half a block, dismounts and connects to a fire hydrant and gets water out of their fifty or sixty feet of hose. Time of the Cameron team was 19.2 seconds. Seguin department took first place with 18.9.

The Cameron team members were Jerry Mikula, Jack Logan, Vaughan Jenness, Felix Matula, Buck Slavik and Ed Kohutek. The Round Rock entry was third.

Livestock Judging Team Of Buckholts In State Contest

The Buckholts Livestock Judging team participated in the state judging contest held at Texas A & M on May 5.

The same team competed April 14 in the Area III elimination contest for state competition where nine schools out of each of the 10 areas are qualified for state competition.

The livestock team was composed of Joseph Chevalier, son of Mr. and Mrs. W. Chevalier; Sammy Shrhak, son of Steve Shrhak; Joe Dean Zajicek, son of Mr. and Mrs. Joe Zajicek and Lamar Wayne Gresak, son of Mr. and Mrs. Waymond Gresak.

Radar To Check Milam Motorists More Regularly

It was announced last week that a complete radar unit for checking motor vehicle speed on the highways of Milam, Brazos and Burleson Counties. In the past a unit came out of Austin about once a month.

It was stated that this new radar unit will now enable highway patrol to check motor vehicle speeds on all public roads at regular and frequent intervals.

A light has been placed atop the fire siren tower which will serve to notify patrolmen at night when they are wanted.

Saturday night, May 5, the Milam Motel was invaded by a wildly driven auto, running over a light fixture and then backing over a curb and into one of the courts. This incident was reported by the owner C. A. Jackett and only after thirty minutes police were contacted. After getting a description of the car police later apprehended the car and the driver, James A. Leonard, a Fort Hood soldier, at the east end of the Little River bridge. He pleaded guilty and paid a fine of \$43 and \$15 damages to property at the Milam motel.

A Plymouth car was stolen from Mrs. Laura D. Martin of Cameron but the theft was not discovered until Sunday morning. Cameron police asked Rockdale to put out a notice to police in Central Texas of the stolen car and it was later found in Giddings abandoned.

A burglary was reported Sunday as having happened sometime Saturday night at the Folschinsky Grocery Store in Santa Fe Town. Loot included 20 cartons of cigarettes, two boxes of cigars, eight boxes of chocolate milk, 25 pounds of lunch meat and a quantity of cookies and potato chips. Officers later found six empty cartons of the chocolate milk on the Pump house road. These are being processed for finger prints.

Officers were inclined to connect the burglary with the car theft. In the instance of the car theft a juvenile was named by a service station attendant who filled the car late Saturday night with gasoline. The youngster named has been questioned by authorities on several occasions lately in connection with forced entry of other property.

Police chief Willie Dolan, in taking over the office of police chief has made himself available for all sorts of complaints included among them was one dealing with a nuisance. In this instance he made a fourth trip to a home on Burleson street where a man kept eight mongrel dogs and a horse. It was agreed that the man should keep one of the dogs for a watch-dog but the others had to go. Upon finding out that nothing was being done about the dogs the chief proceeded to kill three of them. The next time Dolan visited the home the second See **CITY** - Back page

Tejas Scouts Continuous Contest Set

A contest which will be a continuous affair is planned by Tejas District Advancement Committee of the Boy Scouts of America.

Awards will be presented three times a year in May, September and January. The award will be based on the percent of rank advancement made by the members of individual troops. Using a percentage basis the troops all have equal opportunities.

At the end of each time period each troop will have the total number of points figured that they could earn by each member advancing one rank. The troop reaching the highest percent will receive the trophy. The trophy will be awarded three times a year.

The points will be figured on the following basis: Tenderfoot to Second Class 5 points; Second class to First class 15 points; First Class to Star 10 points; Star to Life, 15 points and Life to Eagle 25 points.

Only rank advancement counts, it was decided.

Charles E. Russell Offers Candidacy As Pct. 7 Constable

Charles E. Russell of Yarrington and a Milam County resident for 50 years has announced his candidacy for Constable of Precinct 7.

After being asked by so many friends to run, since no one had announced for this job.

I feel that most every voter knows me as I have worked as State and County maintainer operator for about 40 years before having to retire from heavy work in 1949 on account of my health and age.

I take this means of soliciting your votes and support as I may not contact each one in person and thank you to consider me in the primary election. I will strive to do my duty if elected to the best of my ability.

May 16 Final Date For First Grade Registration

With more than 100 pupils enumerated on the Cameron census who are due to enter the first grade in the fall only 65 showed up for registration on May 1 and 2, the Grade School Principal Wiley Loughmiller reports.

Loughmiller noted that some of the parents did not know of the May 1 and 2 registration dates and so he is setting aside Wed-

nesday May 16 as FINAL date for registration, hours from 2:30 to 3:45.

The principal states that the first day of school next year will be a classroom day and no provision is made for registration on that date.

About five minutes is required for registration, the principal said.

BEST IN TEXAS is the Poultry Judging team from Buckholts above. The Glaser cousins and Hal Lester Senkel admire their "token of excellence". The team is shown with their teacher Cornelius Tittsworth.

C. L. Carson, group manager for the company in charge of Cameron said last week while visiting the Cameron Chamber of Commerce that a system is "Tailor Made" for the particular town. In other words Western Electric would get blueprints for Cameron only. "We can't just count noses and order out that many phones, the manager said, it just isn't that simple."

George Brooks, district manager out of Austin was also around. He said that he finds that since many in Cameron seem to be uninterested in the modernization that the Company will get in no hurry about programming for installation of the dial here. There is just too much demand for equipment and services in areas already turned over to dial to be anxious about extending the service. He pointed out that new connections in Austin for instance are far behind.

It was made plain by Brooks that since the company finds resistance to the dial telephone in

Texas

Ewen Cameron
By Lelia McAnally Batte

Ewen Cameron was born in the year 1811 in Scotland, and came to Texas at the age of twenty-five years. On his arrival in Texas in 1836, he enlisted as a private in Captain Joseph H. D. Rogers' Company A, First Regiment, Fourth Division, Kentucky Volunteers, in the army of Texas. Two years later, in 1838, he was issued Bounty Certificate No. 3616 for 640 acres of land for service in the army from April 29 to October 21, 1836. On January 10, 1839, he enlisted in Captain Andrew Briscoe's First Regiment, Second Brigade, Texas Volunteers. (Comptroller's Military Service Record, Texas State Library, Austin.)

When in the early part of the year 1839, a revolution was taking place in the Mexican States which bordered the Rio Grande the Federalists under the leadership of Canales and Gonzales took refuge in establishing their headquarters at the old Fort Lipan Titlan now in Nueces County. Cameron with other Texans joined the Federalists and when the leadership of Colonel Antonio Zapata marched into Mexico. On October 3, a battle was fought at Alcantra twelve miles beyond the town of Mier. The Federalists suffered defeat at the hands of the Centralists. The Texans returned home, after many adventures, in January 1840.

Unexpectedly, in September 1842 General Adrian Woll with his army of fourteen hundred men appeared at San Antonio and captured it. Volunteers gathered under the leadership of John G. Hays, Mathew Caldwell, Cameron Benjamin McCulloch, and others numbering nearly two hundred men and on the 18th, they defeated General Woll on Salado Creek six miles from San Antonio.

The Somerwell Expedition that received its name from its commander, General Alexander Somerwell, was in revenge for Woll's Expedition set out November 22, 1842, with about seven hundred men to invade Mexico, Cameron being a member of the expedition. When on December 19, the Texans were camped on the Rio Grande across from the little town of Guerrero, General Alexander Somerwell ordered them to return to Gonzales to be disbanded. Three hundred men, Cameron included, refused to do so. They organized what is now known as the "Mier Expedition", and continued to march into Mexico, Cameron was made Captain of Company A of this new organization. On Christmas night 1842, the Texans crossed the river and fought a desperate battle with the Mexicans at the town of Mier. The Texans were victorious, but believing the Mexicans expected reinforcements, they were induced to surrender. They were tied in pairs and started for prison in Mexico. They reached the Hacienda Salado between Saltillo and San Postosi, February 16, 1843.

Brownsville is the county seat of Cameron County, and on November 28, 1928, a tablet was unveiled; this tablet, being the gift of C. H. Thorn of the Valley Historical Society. The tablet bears this inscription, "Lest we forget, this tribute to Captain Ewen Cameron is placed here. Born in the Highlands of Scotland in 1811, he was killed in Mexico, April 25, 1843. A soldier of the Republic of Texas, he died with his face to the foe. 'Cowards die many times before their death, the valiant never taste of death but once.'"

"Mrs. U. S. Navy 56" Will Be Chosen By Fleet Reserve Assn.

The Secretary of the Navy has approved a Fleet Reserve Association contest to select "Mrs. U. S. Navy 1956."

The FRA announced that the competition will include wives of Navy enlisted men stationed all over the world.

The winner will be selected on the basis of how much she has contributed to her husband's career and on an essay entitled "Why I am Proud to be a Navy Wife." The final judging will be by enlisted men of the U.S. Navy.

Prizes will be collected by the Fleet Reserve Association through donations from industrial firms, private organizations and individuals. The list of prizes has not yet been completed, but an all expense trip to Honolulu and a cash award will be includ-

ed. The Association is composed of about 50,000 Navy and Marine Corps career enlisted men.

It's Bigger than Both of 'em

-but its price makes it one of America's 3 best sellers!

It's as simple as this:

Only two cars in all creation outsell Buick. And they are two of the well-known smaller cars.

So maybe it will pay you to ask how come Buick has zoomed to the No. 3 spot with such fast-selling company.

Well, one answer is the beautiful and brawny Buick SPECIAL you see pictured here - and the low price it carries.

It's the biggest bundle of high-powered performance and high-fashion luxury ever offered in Buick's lowest-priced Series.

And that means more people want it and can afford it, because it's priced only a few dollars more than its two smaller-car rivals—even less than some models of those very same cars.

But the big answer comes from a sure fact more folks have discovered: you get more pure automobile for your money in Buick than you get elsewhere.

Here, you get the extra wallop of big new Buick power

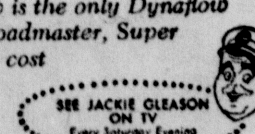

raised to a new high—and pouring in smooth whisper from a brand-new 322-cubic-inch V8 engine of true high compression.

Here, you get the matchless buoyancy of Buick's great new ride—the extra-safe feeling of Buick's new handling ease—the extra stretch-out comfort of Buick roominess—the extra solidity and strength of Buick structure—the extra pride and prestige of Buick's new styling and dash.

Here, too—and nowhere else—you can get the silk-smooth performance and flash-fast response of Buick's advanced new Variable Pitch Dynaflo®—the world's only transmission with the gas-saving mileage and switch-pitch action of the modern airplane propeller.

This week—this very day, if you wish—you can sample all these Buick blessings to your heart's content and your pocket's joy. Why not drop in on us and do just that?

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

BIG-CAR RIDE? Don't think you have to pay a big-car price to get it. Come in and...

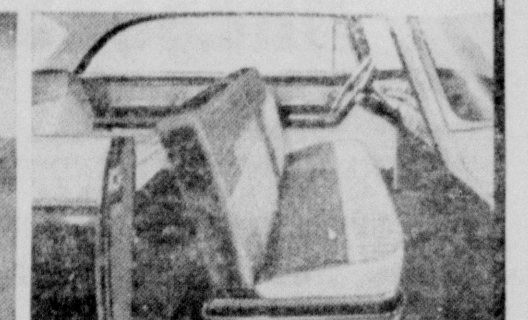

DISCOVER THE DIFFERENCE IN DODGE!

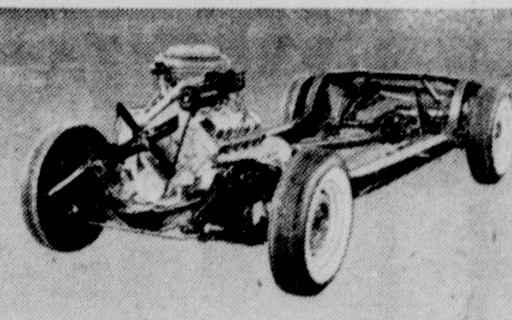

A smoother ride with Oriflow! Dodge fluid-activated shock absorbers give more precise control than spring-loaded valves in other cars.

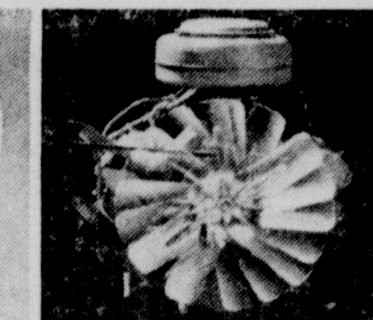

It took "big-car" ride to go 31,000 miles in 14 days! No car that just talked "big" could have withstood the tremendous punishment Dodge did at Bonneville. Dodge went 14 days and nights (31,000 miles) at an average speed of 92.86 mph without a single breakdown!

Only a big car can give you big-car ride! And Dodge is bigger all around—inside and out. More legroom front and rear. More hiproom front and rear. More steering wheel clearance.

The backbone of the Dodge ride is a better chassis! It starts with a rugged frame with sturdy box-section side rail construction far superior to common U-channel and I-beam types. Cross members are extra heavy.

The V-8 engine is special, too! The 260-hp. V-8 engine is built on advanced aircraft design principles to give you real break-away power.

Milam Farm Sales In '54 Top 7 Millions

The value of products sold in 1954 by 2,659 farmers in Milam was \$7,238,232 according to a preliminary report of the 1954 census of agriculture published by the Bureau of the census, U. S. Department of Commerce.

The value of all crops sold was \$4,581,469 and included \$4,348,777 for field crops, \$186,626 for vegetables \$38,066 for fruits and nuts, and \$8,000 for horticultural specialties.

The value of all livestock and livestock products sold was \$2,704,765 and included \$76,850 for dairy products, \$547,020 for poultry and poultry products, and \$2,080,895 for livestock and livestock products.

The value of forest products sold from the county's farms was \$1,998.

Information on the value of farm products sold for each county in a preliminary State report, copies of which may be purchased from the Bureau of the Census, Washington 25, D.C., at 10 cents each.

Hubam Patch Saves Abel From Headache At Sharp Farm

"Fall seeded Hubam sweetclover has provided me with valuable supplemental grazing for my livestock this spring," says district cooperater Henry Abel near Sharp, Texas. Abel's farm is located three miles west of Sharp on the Davilla Road. "I don't mean that the clover has grown like I wanted it to, or that the amount of grazing it has produced

is spectacular," he says. "It's just that I would be in a bigger strain with my cattle for pasture than I am if I hadn't had it."

Eighteen acres of clover provided three weeks grazing for sixty head of cattle. This is the equivalent of seventy days grazing per acre, Abel states, and is enough to allow me to break about even or profit just a little even if nothing further is harvested from the crop. There is still time for the production of a partial seed crop from this clover, or additional grazing, if it only rains.

Last year Abel harvested up to nine hundred pounds of clover seed per acre from his Hubam.

Construction of pond reservoirs to provide a source of livestock water has recently been completed on the farms of district cooperators Winslow Cadan, Frank Treka and Anton Kohutek. All of these farms are in the Friendship community east of Granger, Texas. A bulldozer was employed to complete this construction work.

Election Proviso

Sanford Charges Both Disallowed

The Court of Criminal Appeals threw out the penal provisions in the Texas Election Code which limited expenditures by individuals toward the election or defeat of a candidate for public office.

In issuing its opinion the court dismissed charges against Vern Sanford, general manager of the Texas Press Association, who had been indicted by a McLennan County Grand Jury on the charge that he had spent \$76 for Waco newspapers during the 1954 campaign.

Pointing out that one state law

makes excessive expenditures by individuals a felony, while another law makes such expenditures both a felony and a misdemeanor, the court held that this direct conflict between the two laws rendered both laws invalid.

Thus, in the absence of any applicable law on which to base the indictments, the court dismissed the charges against Sanford.

The question of constitutionality of the limitation of expenditures, a point which had been raised by the Texas Press Association on the ground that it infringed upon freedom of speech, was not decided by the court's ruling. In order to rule any law unconstitutional, it is necessary first to have a law.

Under the court's opinion, there is no valid penal law on the Texas statute books which governs a person's right concerning such expenditures.

4-H Alumni Honors Due For Services

Former 4-H Club members will be honored in 1956 for outstanding citizenship and leadership activities in community and business affairs through the National 4-H Alumni Recognition Program.

The search for outstanding 4-H Alumni is going on in 47 states. Awards for the winners are provided by the Plant Food Division of the Olin Mathieson Chemical Corporation.

Framed certificates are offered for two winners in each county who have adhered to the ideals and principles of 4-H in their adult careers. Burnished copper plaques, mounted on walnut, will be presented to four state winners.

Eight national winners, chosen from the state nominees, receive gold keys and all-expense trips to the National 4-H Club Congress in Chicago, Nov. 25-29. At the

Congress, they will be guests of honor at several events, including the National 4-H Alumni Winner's Banquet.

Former national winners in the Alumni program include governors, bankers, farmers, homemakers, farm newspaper and magazine editors, university and government officials, and other community, state, and nationally recognized leaders.

Nomination forms and complete information on the program may be obtained from county Extension offices. Awards in the program are coordinated by the National Committee on Boys and Girls Club Work.

Rosebud Lions Club Backs Youth Center

The Rosebud Lions Club is sponsoring a youth recreation center for Rosebud teenagers during the summer vacation months. The project is one of the most ambitious yet tackled by the club, both financially and physically, requiring much labor by members.

Plans call for location of the center in the Corner Fountain building, across from the Post Office, to be remodeled and opened two or three evenings each week during the summer.

The teenagers voted overwhelmingly to operate the youth center themselves, under the supervision of an adult advisory committee. A board of directors, composed of a boy and a girl from each class of the seventh through the twelfth grades, has been elected by popular vote of the students.

The primary consideration is to give local teenagers a more pleasant and interesting vacation at Lions Club spokesman said.

Extension Service In Texas Among Nation's Finest

Texas has one of the finest agricultural extension services in the nation. And next week The Humble Company's TV program, Texas in Review, will show how this service helps farmers modernize and improve their farms to increase profits and living standards. The feature was filmed on the E. H. Grote farm in Nueces County.

PLOT TO WIN POP MEDICINE CABINET OK

Housewives seem to be banding together to make certain that Pop meets as well groomed a wife when he gets home for dinner as was the secretary he left at five o'clock. A couple of minutes with some lipstick, eye drops and a hair brush not only makes her look relaxed and attractive, but helps her forget the wear and tear of the washing machine, ironing board, the kitchen sink and several overly-active children.

Paul Kunz Again Heads N.T.S.T.C. Newman Club

Paul Kunz, a junior from Cameron, has been re-elected president of the N.T.S.T.C. Newman Club.

Paul is the son of Mr. and Mrs. August G. Kunz of Cameron. He is a Secondary Education major and plans to teach after his graduation next spring.

COTTAGE COMFORT

When you make that final check of supplies before leaving for the cottage this summer, be sure you have provided for your family's

physical safety as well as its comfort. And take these items with you - you might need them on the way. You should have iodine and bandages; sun-tan lotion, if you are planning much beach activity; eye drops; aspirin and salt tablets.

LITTLE RIVER PHILOSOPHER FROWNS ON CITY WRITER'S IDEA TO SOLVE FARM ILLS BY PART-TIME FARMING.

Editor's note: The Little River Philosopher on his Johnson Grass farm on the Little River is worried about the farm surplus again this week, needlessly, we think, as nobody can pin any of the surplus on him.

Dear editor:

Being a student of the solutions people all over the country are offering for the farm problem, on the theory it's interesting and comforting to know others are thinking about you, whether their ideas are worth anything or not, I'm naturally on the alert for new ideas along this line.

And the other day I ran across what I thought at first was going to be a wonderful idea. According to this one, put out by a city newspaper writer, everybody knows this farmer is caught in a cost-price squeeze and the

way for him to work out of it is through part-time farming.

According to him, part-time farming is the answer, and I was fixing to write him a letter congratulating him on his idea, when I kept on reading. It wasn't what I thought it was at all.

"Part-time farming is the answer," he said, then explained that what he meant was farmers could whip their problem of a shrinking income by taking a job in town, working eight hours there, then

rushing home and getting in their farming after hours and on Saturdays.

That doesn't strike me as part-time farming. What it looks like to me is full-time working and over-time farming.

It's nothing new to me to know that I could go to town and get a job. I've known that for years. A solution to the farm problem that requires me to work twice as hard as I am now is no solution as far as I'm concerned.

If this country is ever going to get rid of the farm surplus, the farmers are going to have to farm less, which suits me fine, but what they do with the rest of their time is none of any city newspaper writer's business.

I don't know whether there's a solution to the farm problem or not, I doubt it, but doubling my work load to do it is one of the most radical ideas I ever heard of.

Character Traits Stressed In Talk To Bethany Class

"Speech, temperance in all things, and kindness are important traits of character", Miss Natalie Bynum told members of her Sunday School class Thursday night May 3, as she discussed "Making the world more beautiful."

Miss Bynum told of a man in Baltimore, Md., who planted a garden first for himself but upon learning how others enjoyed seeing his garden of flowers and evergreens he invited them to come and see it. Now by the bus loads each year thousands visit his garden.

den. He has helped to make his world more beautiful.

Present were ten members of the First Baptist Bethany class at the home of Mrs. Jimmie Angell, 601 W. 6th.

An increase of four members is the goal of the Bethany class during an enrollment emphasis period starting this month throughout the church school.

Homemade ice cream and cake were served.

COMMERCIAL USES PROVE
dieldrin
SURE KILL TO

• LYGUS BUGS
• STINK BUGS and others

Early-season pests such as lygus bugs, stink bugs, thrips, fleahoppers are effectively controlled with powerful dieldrin by thousands of growers every season. Dieldrin also controls cotton's enemy No. 1, boll weevil, and other cotton pests such as cutworms, rapid and tarnished plant bugs, and armyworms. For bollworm, simply add DDT.

Easy to use—Dieldrin can be applied as a spray or dust . . . either way, you get effective, high kill.

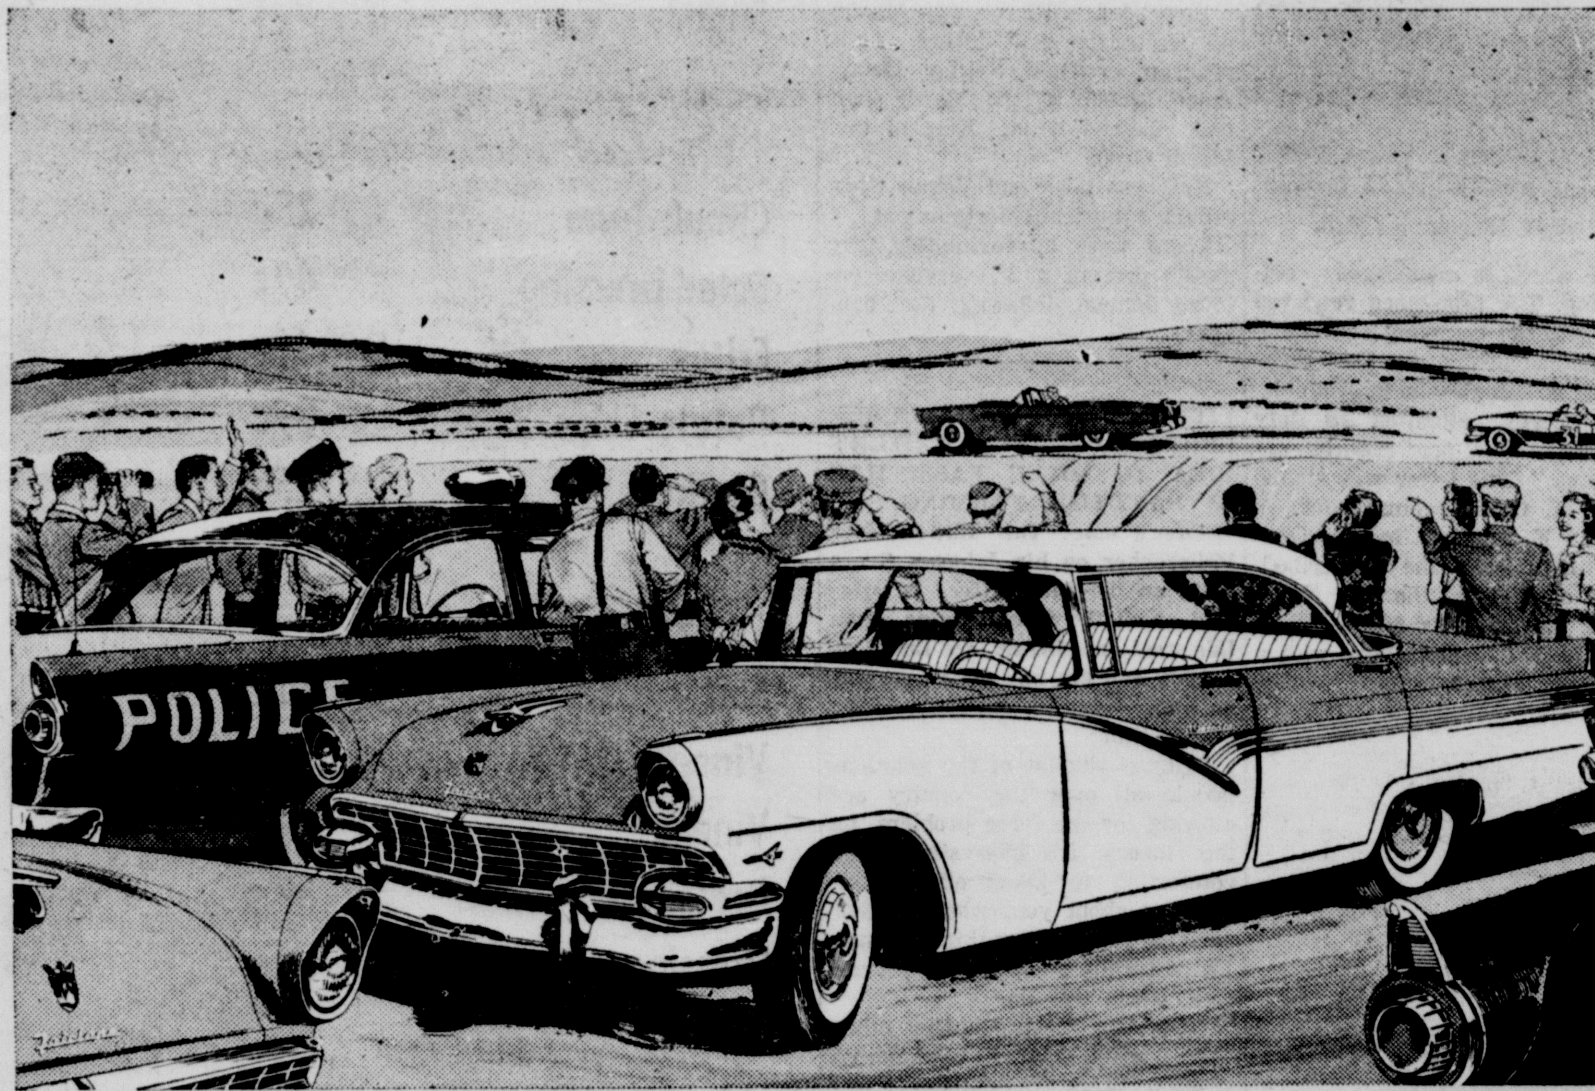

And it's long lasting . . . a single application of powerful dieldrin will knock out cotton pests for many days after application. Even hot, dry areas cannot discourage dieldrin's long-lasting effectiveness.

This season, control early-season cotton pests and get bigger cotton yields and an early harvest. Use dieldrin! Dieldrin is available under well-known brand names from your insecticide dealer. See him today.

The Thunderbird's own record-setting 312 cubic inch engine can now be yours in most Ford models.

Ford goes First...with the 225-h.p. V-8

Now you can have a 225-h.p. engine with **Fordomatic Drive** for less than the top engine in any other low-priced car with ordinary standard transmission!

Until you slip behind the wheel and sample the sizzle of a 225-h.p. Ford V-8 for yourself, the best thrills in motoring are still ahead of you. For this mighty engine delivers performance that will set your spine a-tingle . . . performance that will recapture again the fun of driving . . . performance that keeps Ford the world's largest-selling V-8!

Truly Ford goes first with this 312 cubic inch engine—largest ever offered in a low-priced car. Yet, even teamed with Fordomatic, it costs less than top engines in other low-priced cars with just standard transmission!

Ford goes first with Lifeguard De-

sign, too. For example, there's the deep-center structure of the steering wheel that helps to protect your chest in case of accident . . . double-grip door latches to reduce chance of doors opening under impact.

As for looks, every '56 Ford took its styling inspiration from the Thunderbird. They're the most glamorous cars in Ford's field.

In economy, too, Ford goes first. In the 1956 Mobilgas Economy Run, a Ford V-8 beat everything in its class—including Sixes as well as Eights. Come in now for a thrilling Test Drive. When you return you'll understand why Ford is the V-8 with the biggest following.

In Performance . . . Safety

NEW LIBRARY BOOKS

• Cowboy And His Horse by Sidney E. Fletcher

• Mascot Peruna by Leila Rostiser

• The Pony Express by Lee Jensen

The Cowboy and His Horse Fletcher, a noted artist-author, brings to you exciting stories of early trail drives, gunfighting and rustlers in the days of the open range, and the less dramatic but not less exciting story of a day in the life of today's cowhand.

You will see all the pieces of a cowboy's equipment from boots to his "John B." all the different types of chaps and spurs, plus the colorful stories of the Bowie knife and the Winchester rifle.

Fletcher takes you through all the excitement of the rodeo - from the early small-town affairs of the frontier West to the mammoth World's Championship Rodeo in Madison Square Garden.

And you'll find the fascinating story of brands - a language all its own - from the earliest Spanish-Mexican brand of Cortez to a hundred of the most famous brands still being run today.

For you lovers of fun and frolic, there are cowboy songs and a square dance - completed with music and calls. All this, mind you, with more than 200 illustrations.

"I think it is the outstanding work of its kind and subject to date. Though I have made a study of the cowboy's life, work and language for the greater part of my existence, I have never become excited over a juvenile cowboy book - that is, until I read a copy of Sydney Fletcher's book, 'The Cowboy and His Horse'." - Ramon F. Adams - The Dallas Morning News.

The Library is opened Tuesday, Wednesday and Thursday 3:30 - 5:30 P.M. and Saturdays 9:00 - 11:00 A.M.; 2:00 - 5:00 P.M.

Cameron "Accelerators" Getting Drag Strip

The National Association of Hot Rodders moved into Cameron on March 16. Meeting each Thursday night at Charlie L. Krennek's Garage the "Accelerators" now have 21 members enrolled with Gene Mitchan as president of Cameron Jet-teenage hot-rodgers.

Krennek allows the teen-agers the run of his garage, tools and all for demonstrations and for actual work on their hot-rods and stock cars after each Thursday night's business session.

Safety is one of the cardinal principals behind the organization both on the local and national level and a member is suspended if he gets a ticket for a moving violation.

Most important development in the new organization here now is the advent of a "Drag" strip at the airport. A strip at the Rogers controlled airport is about to be readied by the airport manager for the boys to have their races

each Sunday.

Details of the local drag course are being worked out at this time but using the Temple, Gatesville and Waco strips as examples there may be a fifty cent gate fee to all cars and possibly a \$1 "Drag fee."

Police chief Willie Dolan said at the Thursday night meeting last week that "I am all for you, the whole police force will do everything we can for you."

Contestants will arrive at the track at about 1 p.m. each Sunday that races are being held and their cars will undergo rigid safety inspections before being allowed to enter the competition that begins at 2 p.m.

The Cameron club at this time has cars for entry in at least four classes 1. Large stock cars 2. Small Stock cars and 4. Modified Stock cars and 4. Modified Roadster.

While the airport strip is long enough for the full quarter mile run it is considered 420 feet too short for a regulation course because of the need for stopping space beyond the finish line. However it is considered that the low-

er speed cars now available in Cameron can be handled on the strip.

The record quarter mile run in the country is 151 miles per hour for a "Dragster." This vehicle is built to run the course only and after taxiing off the strip is then moved by a tow car wherever it goes.

There is no paid personnel in the organization but the insurance fee for each race is \$65 which is carried through the National Association.

The national meet is at Kansas City each year and in these races an electric-eye times the cars as they cross the finish line. While one car may cross the finish line first a second car may cross at a greater speed because the first one had the greater initial speed but the second car was reved up to a higher speed at the finish line.

Membership fees in the club is fifty cents per month.

It is the desire of the authorities that the people will catch the spirit of the movement and support it. The first races may have to be run at a loss but with succeeding races it is hoped that attendance will make the costs, including the purchase of trophies easily earned.

The First National Bank has agreed to lend the loud speakers owned by the firm to the weekend events and others in town have assured the club of their support.

The "Accelerators" is the first

approach to making the life of the Jet-age teenagers more complete and in a manner which is well calculated to control and channel his enthusiasm for speed that will make the streets and the highways safer for everyone concerned.

Cameron "Accelerators" are: President Gene Mitchan; Vice-President, Louis Krennek; Treasurer, Bo Kennon; Secretary, Richard Favor; Reporter, Billy Slavik; Assistant Secretary, Carter Collins; R. L. Wheeler Jr.; Johnny Moseley, Ferrol Angell, Archie Mraz, Prather Lee Ward, Eddie Matyastik, Littleton Barrett, Arel Rives, Jimmy Smalley, Adarin Bailey, Harry Kelm, Benny Masengale, Allen Smith, Charles Crawford and Bobby Joe Heitmann.

Diphtheria Rise In Adults Unnecessary Says Health Head

Last year there were 260 cases of diphtheria reported in Texas. According to Dr. Henry A. Holle, Commissioner of Health, this is a great improvement over 1945 when over 1500 cases were reported. The sad part of it is that none of these cases needed to have occurred.

"It is an accepted fact," Dr. Holle said, "that any community may control its death rate from diphtheria. Immunization has proven to be a safe and effective preventive measure."

Secondary Summer Cases
Diphtheria appears more often during cold weather and often a secondary rise occurs in the summer. In former years practically everyone was exposed to diphtheria when young, and through many small exposures became immune. As a result very few adults developed the disease and most of the cases appeared among children. Now more people grow up without exposure and the development of naturally acquired immunity, so more adults get the disease.

Young children are particularly susceptible to the disease. As soon as a baby reaches six months of age parents should take him to the family physician and have him immunized. Older children in families who have not had the protective treatment should also be immunized.

Immunization Safe
Immunization is absolutely safe. There is but slight local reaction and practically no constitutional or troublesome after effects. To be certain that the immunization is complete the child should be taken to the physician six months after the toxoid is administered and given the Schick test. Booster doses may be needed periodically.

Guardsmen Fire Carbines At North Fort Hood Sunday

The officers and enlisted men of the Cameron National Guard unit, Battery C, 649th Anti-aircraft Artillery Battalion, attended a period of week-end training at North Fort Hood on Saturday and Sunday, May 5th and 6th.

The Guardsmen engaged in firing for record with carbines on the Fort Hood rifle range during the two days. Battery C departed from the Armory in Cameron early on Saturday morning and made the trip to North Fort Hood in their own vehicles. There they joined other units of the 649th from Temple, Belton and Taylor. The Guardsmen bivouaced in the field over night near the rifle ranges.

Hybrid Corn Gives Lowest Cost Per Bushel Says Coffey

Farmers who plant corn should set as their objective maximum production at the lowest possible cost per bushel. The planting of an adapted corn hybrid, says L. C. Coffey, associate extension agronomist, is a mighty important step toward achieving the objective.

Coffey reports that Texas farmers last year averaged 23.4 bushels of corn an acre, the highest average acre yield on record. Over the past 20 years the average has been approximately 16.5 bushels. Last year approximately 75 percent of the acreage planted was seeded with hybrids.

However, he says, the late Mar. 1955 freeze caused many farmers to go to their cribs for planting seed because the supply of adapted hybrids was exhausted. The results from planting second-generation hybrids or open-pollinated seed were good because of the excellent growing conditions but Coffey warns that such yields cannot be expected under more adverse conditions.

He says that neither second-generation hybrids nor open-pollinated varieties will produce yields comparable to adapted hybrids. Research studies and tests show

that adapted hybrids produce from 35 to 75 percent greater yields than the best open-pollinated varieties with even greater differences under poor conditions. Second-generation hybrid seed will produce about the same yields as open-pollinated varieties says the agronomist.

Coffey advises farmers who plant corn to make their usual purchase of an adapted hybrid. "Don't," he adds, "Take a chance

on harvesting less corn per acre in 1956 by planting seed which under normal growing conditions will not produce top yields."

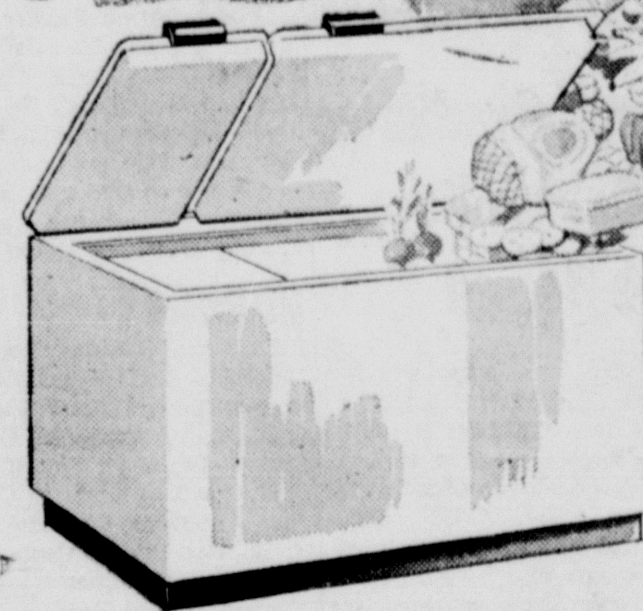

Corn breeders, over a period of years, have developed hybrids which are adapted to the different corn producing areas of the state and Coffey strongly recommends checking with the local county agent for information on the best hybrid for you area.

The convention Harry W. Clark to write a letter thanking and commending the work of Chairman McClaren. In discussion of the resolution E. A. Perrin brought up a letter over the signature of the County Chairman which recommended to all Precinct chairman the instruction of delegates for Senator Johnson, Perrin made his point that the endorsement by the county chairman was unwarranted because of the supposed impartiality of the county chairman. Following discussion from the floor with a Mrs. Smith pointing out "I read in a book" that the county chairman is supposed to recommend. Another offering on the effect that "Us farmers sometimes have to have advice on such affairs because we in the country don't have the time to get around and find out all these things for ourselves as the town people do." Perrin capitulated and the vote carried by a strong voice vote, over opposition.

Chairman E. A. Camp declared that the convention was the best he had attended in fifteen years and declared the convention adjourned sine die at 9:35.

Dolan, finding that there were no accident report forms at the police quarters in Cameron borrowed some of the forms from the Rockdale police and immediately began reporting, as required by law, several minor accidents which have happened in Cameron since he came here.

Fines have been increased from \$15, in most instances, to \$21.50 which includes court costs. They are: For drunkenness \$21.50; Speeding \$21.50; No drivers license, \$21.50; Disturbing the peace \$21.50. The offender upon plea of guilty or being found guilty in corporation court may either pay the fine or lay it out in jail at \$1.50 per day and meals.

Chief Dolan had new tires put on the police car this week and had it tuned up so that now instead of sixty miles per hour which had been it's maximum speed it will attain 100 miles per

hour in a short space.

Council decided at a recent special meeting to void all parking tickets given prior to May 1 and to strictly enforce all given during May and henceforth.

Cameron Man Taken For "Ride" Tuesday

A young man and his uncle were "taken for a ride" in Cameron, Tuesday night.

Jim Ulicnik, 34, a farmer on the Antone Morrow place was picked up at his home by the abductors and asked to lead them to the younger mans home upon threats of violence.

Arriving at the Frank Ulicnik home at about 10 p.m. Frank, Jr. 18, got out of bed and shoeless went out to see who had come. Upon seeing his uncle in the car he agreed to get in beside Jim.

The car was driven about a quarter mile from Frank's home and he was given a severe thrashing with a hard object. Jim was held at bay by the man in the back seat upon the assumption that he had a gun.

The younger Ulicnik admitted to Sheriff Black that he had passed a "hot check" a couple of weeks ago in a gasoline station in Rosebud and a search was begun for the operators of that station.

No arrests were made Tuesday.

The lady felt that a number of Milam County people would wish to trek to Texas' metropolitan city to be with the Milam County people there and to hear an address by the honorable Oscar Holcombe, mayor of Houston.

Coaches Corner

By Homer Tompkins Our three game winning streak came to a close against Belton last Friday. We clearly out hit them but mistakes were the difference. The boys were too tight and keyed up for the game and threw the ball wild at times. We never stopped fighting even until the end. The final score was 12-8 Belton.

Other games we played included a 2-0 win over Taylor Monroe. Bayner gave up a three hitter and we gathered in four hits. Both our runs were scored on squeeze plays. We were proud to have shut Taylor out especially since they are a larger school than ours.

In the Killen game we beat them 6-4. Louis De La Rosa was the winning pitcher. A good crowd turned out and saw a thrilling game for two high school teams. Last Wednesday we traveled to Buckholts for a scrimmage game and Butch Polzer got his second home run of the year as we out hit them and won 12-3. Bobby Elliott won his first game of the season.

Baseball is a good clean game. Our kids are young in experience but have improved by leaps and bounds. By next year we should have at least three pitchers that could last all seven innings if necessary and even though we lose some key men as Butch Polzer, Sonny Raymond, John Duncan, Bobby Williams, Alvin Baggerly we will have a nucleus of many young boys to choose from even though they didn't get a lot of playing experience this year.

We have five more games remaining this year, Rosebud, LaVega, Georgetown, Taylor and Killen and we're going out to win them all. The last three will be played here.

Coach Jackson took some Junior track boys to Waco Saturday for a big meet. Out of 70 boys we had a few boys in the finals of some races: Johnny Davis in the 50 and 100 yard dashes. John Josey was beat en by only a few inches in the semi-finals of the 120 yard low hurdles. George Zarowsky was eliminated here also. Cameron did better than average even though we failed to win the meet. Experience for our young athletes is very important to our school program.

Since track is over every boy is still working in preparation for next years football team. Our seventh and ninth grade boys work an hour on football, softball, volleyball or just calisthenics to condition themselves. Athletics, of course, are strictly voluntary, and anyone who wished may take part regardless of his size, speed or ability. On the other hand boys and girls must take a physical training required by the State of Texas and it is important too. Building better bodies cuts down on the amount of diseases and increases ones resistance against such.

The fourth, fifth and sixth grades also do some exercising each day which is very educational for the kids.

One thing our school does, it

G. W. Huggins, cooperator in the South Nolanville community, has enlarged a farm pond for livestock, and would go dry in dry pond that did not furnish an adequate water supply for his livestock, and would go d in dry periods. He moved approximately 1700 cubic yards of dirt with a bulldozer to enlarge the pond to a depth of 12 feet.

In addition to preparing for needed livestock water, Huggins also shaped a waterway through his cultivated field to dispose of pasture water and to serve as an outlet for terraces to be constructed later. Soil Conservation Service technicians from the Belton Work Unit assisted Huggins in the above work.

Five Central Texas pastors will bring 12 minute devotionals on "Stewardship Of The Soil" next week over radio station KTEM, Temple.

The program will be heard from 11:30 to 11:45 each morning. Tune in and hear what our clergymen have to say about man's responsibility to God for the land for which he is a steward for such a short time. The pastors bringing the devotionals are: the Rev. Herbert Don Hitt, from the Methodist Church of Mooreville, Chaplain L. B. Parks of the V. A. Center, Rev. Raymond Schlessier of the Lutheran Church Rev. Maggart Howell, First Methodist Church and Rev. George Brown of Memorial Baptist Church, all of Temple. On Soil Stewardship Sunday, May 6th, these five pastors will also deliver sermons in their church relating to man's responsibility to God for the care and protection of His soil.

The directors of the Knob Creek Up-stream Flood Prevention Association

maintains that if a boy or girl fails to get their studies (which come first) in any grade he forfeits his time to take Physical Education until he has done his required work.

Education comes first, but going through a good athletic program is a great learning experience also and should be carried on as such. Thanks to our school and our school board, high standards are maintained and must be maintained for our program to function smoothly in Cameron.

Come out to the game here Friday at 4 p.m. No charge.

sociation will meet at 7:00 p.m., Monday, April 30 in the Temple Work Unit office of the Soil Conservation Service, to develop further plans for forming a water district on Knob Creek. The Election will be held to vote on the Water District May 12 in the Jo Lee school house.

Eagles' Bane Plans To Become S.M.U. Mustang In Fall

Georgetown Eagle fullback, Wilford Bane has signed a letter of intent to attend Southern Methodist University next fall.

The 175-pound back was a mainstay of the Eagles. He signed the letter of intent last week. The letter, among schools of the Southwest Conference, indicates that Bane is committed and other schools are "not to touch."

In going to S.M.U. Bane will be eligible for the four-year full scholarship offered him in accordance with Southwest Conference rules, by the Dallas school.

Mrs. C. C. Dunlap Dies In Houston Home Of Daughter

Mrs. C. C. Dunlap, 86, formerly of Cameron died at the home of her daughter in Houston Sunday morning, May 6.

Mrs. Dunlap was born and reared in Milam County and moved with her daughter eleven years ago.

Surviving are two daughters, Mrs. Crocker of Houston and Mrs. C. W. Wilkinson of Angleton; One sister, Mrs. C. A. Richardson of Corpus Christi; eleven grandchildren, twenty-eight great grandchildren and three great great grandchildren.

Funeral Services were held at 2:30 p.m., May 7 from the Chapel of Green's Funeral Home with Reverend E. J. Davis, pastor, First Methodist Church in charge. Interment was in Old City Cemetery.

Hilderbrandt Moved To Fayette County By Highway Dept.

Highway patrolman Otis Hilderbrandt has now moved from Cameron to LaGrange in Fayette County.

The officer has been on duty in Milam County for the past two years.

He was reported to have recently considered applying for the position of police Chief in the City of Cameron when the promotion and transfer came.

Week-end guests in the home of Mr. and Mrs. Frank Torno were their children, Mr. and Mrs. Edward Haroldson Jr. and son "Trey", Frank Torno and Miss Shirley Norris all of Houston.
